SUMMARY

Frontend Developer and Computer Science graduate with 6 months of professional internship experience building responsive web applications using React.js, Next.js, JavaScript, and Tailwind CSS. Experienced in reusable component development, responsive design, and Git-based workflows. Built a full-stack MERN application and currently expanding my skills in TypeScript and modern frontend architecture.

WORK EXPERIENCE

Techificent — Frontend Developer Intern

Mar 2024 – Sept 2024

- Developed responsive pages and reusable interface components using React.js, Next.js and Tailwind CSS.
- Collaborated on frontend implementation, debugging and cross-device UI improvements using Git and GitHub.

PROJECTS

DealBazaar — Community-Driven Deals Platform

Next.js, React.js, Node.js, Express.js, MongoDB, Tailwind CSS

- Developed a full-stack platform for discovering and sharing online deals in Pakistan.
- Implemented authentication, deal submission, voting, bookmarks, search, filtering, price alerts and administrative moderation.
- Integrated automated web scraping to collect and update discounted products from external sources.
- Built a responsive bilingual interface and connected the Next.js frontend with REST APIs and MongoDB.
- [GitHub-Repository](#)
